

REMARKS

By this Preliminary Amendment, claims 1 and 2 have been amended from the original European format to current U.S. format by deleting all reference numbers and by substituting "wherein" for "characterized in that". Further, the claims have been broadened by substituting the open ended term "comprising" for the closed term "consisting of". Finally, the claims have been amended to ensure proper antecedent basis.

The Abstract has been similarly amended.

Favorable consideration of this application, as amended, is respectfully requested.

Respectfully submitted,
